

## OCCUPATIONAL LICENSING INSTRUCTORS CONTINUING PROFESSIONAL EDUCATION CREDIT VERIFICATION

Attendance at a traffic safety seminar is approved for credit for the continuing professional education requirement, per Sections 11105.1(B) and 11207(2) V.C., for driving instructors and traffic violator school instructors, respectively, and 11105(A)(2) for driving school operators. To receive credit, complete the form below as indicated and have it signed and dated by one of the seminar registration personnel each day of the conference. The completed form should be retained by the instructor for submission with the instructor renewal application. (NOTE: 18 hours of approved continuing professional education must be completed in the three years prior to renewal in order to have the written examination requirement waived.)
